from the NYMAS group

## HELPING YOU BECOME COVID SECURE

W-Pack – hand wash station in a box • Soap and sanitiser dispensers • Hand sanitiser  
Sanitising wipes • Hand sanitising stations • PPE Equipment

## ABOUT THE RANGE

In response to the Covid-19 crisis, the NYMAS Group has combined a number of existing washroom accessories with some new developments to form a concise range to help our customers achieve Covid Secure status. For ease of selection, the range has been split into wall mounted solutions, floor standing solutions, washing solutions and consumables.

# Wall mounted hand hygiene solutions

The best method of maintaining good hand hygiene remains through regular hand washing. This range of wall mounted dispensing options are for both hand sanitiser where it is difficult to get running water or for soap where installed in a hand washing facility. The range has been put together considering the wide range of needs including various mounting options, design led solutions and the highly efficient and environmentally friendly Zero range.

Taking the design led philosophy from Fitzroy of London, the Fitzroy of London sanitation stand combines the practical needs in many high traffic areas with the aim of blending in seamlessly with current design themes. With the increasing need for PPE to be worn in public spaces this combines the requirement for hand cleaning with disposing of PPE when entering a building.

### Product Features:

- Aesthetically pleasing
- Lockable cupboard door for access to bin and hand sanitiser
- Large 6 ltr hand sanitizer tank
- Integrated Bin for PPE
- Completely touch free
- Can be mains powered or batter powered
- Custom dispensing spout finish options
- Custom wood finish options
